IL Duomo

High-fidelity cutaneous **surgical training model** that features a **life-like skin**, muscles and nerve anatomy.

MODEL OPTIONS

BASIC – NO TUMOR
Real facial anatomy,
musculature and skin
simulant

BASIC – WITH TUMOR
Comes with tumors and
tumor margins that reveal
tumor infections

ADVANCED – NO TUMOR
Includes tarsal plate muscle
and oral mucosa

FULL ADVANCED
Includes large back and chest
area in addition to tarsal
plate muscle and oral
mucosa

COSMETIC FILLER
Perform cosmetic filler
techniques - inject at the
dermal subcutaneous
interface

COSMETIC DIAPHANOUS SKIN
See filler injection pathway
in live time

WHAT IS IL DUOMO ?

Passion for dermatological surgery inspired the creation of IL Duomo, an interactive, high-fidelity, cutaneous surgical training model. Instead of just reading about improved techniques, or practicing them on cadavers and pig's feet, IL Duomo allows for accurately simulated anatomy, including a sub-mucosal structure. It also provides you with realistic hands-on training of basic and complex techniques.

U.S. and foreign patent-pending applications have been obtained for IL Duomo. Dersurg Scientific is continuing to develop its surgical model in order to standardize surgical training for dermatology residents, fellows, and peers nationwide.

"I was able to demonstrate some advanced closures such as a layered eyelid closure, a composite alar flap and an estlander lip transposition flap with realistic experiences."

- Jeffery Altman, MD

more on IL Duomo.

"The artificial demos were as close as you can get to the real thing. Not only do you get to sample the fillers, but you can work on technique and see real time results!"

- Omar Qutub, MD

"The skin texture is great and you can actually feel the dermis in there. "

- Aaron Pace, MD

ANATOMY OF IL DUOMO

High-fidelity skin, Subcutaneous Fat, Facial Muscle & Nerves, Blood Vessels, Parotid Glands/Ducts, SMAS, Nasal Cartilage, Skull, Transparent Skin, High-fidelity Skin of Ears, Auricular Cartilage, Gum Line/Mucosa, Tarsal Plate of Eyes, Tumor Margins
