

All annual meeting sessions are open ONLY TO PHYSICIANS unless marked with the  symbol.

■ 7:15 – 8:45 AM COFFEE TALK SESSIONS

Advance registration is strongly encouraged in order to obtain the Coffee Talk of your choice. Sessions are limited by the seating available, with a cost of \$60, and may be closed at on-site registration. See registration form.

AB401 One Idea - Bring It  1 2 3 4 5 6

Learning Objectives: At the conclusion of this course, attendees should be able to: cite requirements and setup needed for voice recognition software; describe the advantages own owning your place of practice; perform techniques to enhance patient satisfaction with your practice; describe the need to generate “self referrals” rather than depend on outside referrals; identify the advantages and disadvantages of giving bonuses and salary increases during a recession and how to avoid over 24 hours of service in a day.

Brett M. Coldiron, MD
Scott M. Dinehart, MD

AB402 Comprehensive Acne Scarring Therapy

1 2 3 4 5

Learning Objectives: At the conclusion of this course, attendees should be able to: describe how scars need to be individualized in their treatment; clarify treatment options according to the burden of disease; identify the patients who will need combined methods of treatment; and properly perform the necessary procedures to treat the most difficult forms of scarring.

Douglas Fife, MD
Gregory J. Goodman, MD
Christine Lee, MD (Invited)

AB403 Ultrasound Applications in Dermatologic Surgery 

Learning Objectives: At the conclusion of this course, attendees should be able to: define the role of ultrasound energy in dermatology whereby ultrasound-based devices are used for imaging tissue as well as for various therapeutic applications; relate the interaction of ultrasound energy with superficial tissue (skin and subcutaneous region); identify various operational modes of ultrasound devices specific to particular dermatological and cosmetic applications; and explain the biophysical response of skin and subcutaneous tissue to various ultrasound devices that lead to specific clinical applications.

Murad Alam, MD
Inder Makin, MD, PhD

7:15 am Tissue Debulking to Ultrasound Microscopy - Overview of the Basis of Therapeutic and Diagnostic Ultrasound in Dermatology

Inder Makin, MD, PhD

7:30 am Biophysical Basics of Selective Fat Cell Destruction Using Focused, Controlled Depth Ultrasound Energy

Robert A. Weiss, MD

7:45 am Ultrasound-based Approach to Dermal and Subcutaneous Tissue Imaging for Assessment of Aesthetic Surgery Applications

Robert A. Weiss, MD

8:00 am Tissue Interaction Mechanisms of Micro-focused Ultrasound for Soft Tissue Tightening

Lawrence S. Bass, MD

8:15 am Mechanisms and Tissue Effects from kHz-Frequency Ultrasound for Minimally Invasive Liposuction

Michael S. Kammer, MD

8:30 am Questions and Answers

8:45 – 9:00 AM TRANSITION BREAK

9:00 - 10:30 AM CONCURRENT SCIENTIFIC SESSIONS

RX410 Breakfast and a Sunday Drive: The Roadmap to Oncology Treatment 1 2

(Breakfast will be provided with this session)

Learning Objectives: At the conclusion of this session, participants should be able to: discuss current and evolving approaches to the management of high risk squamous cell carcinoma and Merkel cell carcinoma; appreciate the need for multidisciplinary management in caring for patients with aggressive or complex skin cancers and understand current staging and treatment protocols for patients with Merkel cell carcinoma.

Moderator(s): *James M. Spencer, MD*
Desiree Ratner, MD

9:05 am How to Approach High Risk SCC

Vicki J. Levine, MD

9:20 am Managing Perineural Spread in Skin Cancer

Joel Cook, MD

9:35 am Current Approaches to Merkel Cell Carcinoma

Christopher K. Bichakjian, MD

9:50 am Skin Cancer Management in Organ Transplant Patients

Fiona O'Reilly Zwald, MD

10:05 am Update on Management of Sebaceous Carcinoma

Marc D. Brown, MD

10:20 am Questions and Answers

GD413 Late Breaking Abstracts 

■ 10:30 - 11:30 AM SCIENTIFIC SESSION

CS411 Cosmetic Pearls: A Tip a Minute 1 2 3 4 5 6

Learning Objectives: At the conclusion of this session, participants will be able to: describe the latest pragmatic surgical and cosmetic tips ranging from fillers, neurotoxins, skin care and surgical procedures, and; readily incorporate them into both cosmetic and reconstructive practices for optimal aesthetic results.

Moderator(s): *Kimberly J. Butterwick, MD*
Christopher B. Harmon, MD

10:30 am Cosmetic Pearls: A Tip a Minute

Kimberly J. Butterwick, MD

10:38 am Cosmetic Pearls: A Tip a Minute

Mitchel P. Goldman, MD

10:46 am Cosmetic Pearls: A Tip a Minute

Christopher B. Harmon, MD

10:54 am Cosmetic Pearls: A Tip a Minute

Hugh M. Gloster, Jr. MD

11:04 am Cosmetic Pearls: A Tip a Minute

Sue Ellen Cox, MD

11:12 am Cosmetic Pearls: A Tip a Minute

Mark J. Zalla, MD

11:20 am Cosmetic Pearls: A Tip a Minute

Sandra Marchese Johnson, MD

11:28 am Questions and Answers

■ 11:30 AM MEETING ADJOURNS

Program schedule and faculty are as of June 30 and are subject to change.
