Dermatologic surgeons are EXPERTS in skin and cosmetic surgery

DERMATOLOGIC SURGEONS ARE:

• Board-certified by the American Board of Dermatology
• Unsurpassed in levels of training and education
• Recognized as the most qualified and preferred specialist by primary care physicians and patients to perform skin, laser and cosmetic procedures

DERMATOLOGIC SURGEONS PERFORM:

• Skin cancer treatments, removal of symptomatic lesions and cosmetic surgeries on patients of all ages
• Medically necessary office-based surgery and office-based liposuction which research shows has a lower complication rate than hospital-based procedures
• Skin cancer excisions using local anesthesia, which is safer than conscious sedation or general anesthesia

Cost-Effective:

$1,745 Median cost for outpatient melanoma surgeries.

$11,323 Median cost for operating room melanoma surgeries.

Treating skin cancer surgically in the outpatient setting is less costly compared to the operating room.

Non-melanoma skin cancers treated with in-office surgical procedures are as effective as hospital settings and significantly less expensive.
